Time: 7:00 p.m.

**Location: Delaware Emergency Management Agency

Smyrna, DE 19977**

Meeting Purpose: The Delaware All Hazard Mitigation Plan is in the revision process. Mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural or man-made hazards and their effects. The State Mitigation Plan contains a community profile, an analysis of the hazards, a capability assessment, and the State's migration strategy for the next three years. Public participation is essential to the process. At the meeting, we will provide attendees a briefing on the contents of the plan, and open the floor to comments or recommendations.
